

Name: Hydraulic Punching and Notching

- punching holes on steel up to 2mm thickness low price high efficiency and variety dies facilitate the work
- Fast switching dies facilitate work with this machine
- strong body and boosted in order to avoid continual leap
- Laser pointer** helps to find center of holes easily
- digital ruler indicator for X and Y axis (optional)
- Handy lock at X & Y axis

MODEL	HPM-63S
Function	Punching and Notching
Punching power	16 tone
Table dimension	277*90
Throat depth	63 cm
Max. Dies dimension	133-130*110
Hydraulic system	Double acting System
Engine	3PH/3KW/1400 rpm
Operating pressure	150 bar
Power rating	1 x 1.5 Kw
Voltage	220 Volt – 1/50 Kw
Electric	380 V/50 HZ/ 10A
Total weight	Approx. 900 kg
